New Years message

Comrades Post 12074

The New Year has arrived and with it's challenges and goals to be accomplished which we will address and as usual and under take them with the help of our outstanding membership.

We lost members that have gone to Valhalla in the past year and they remain with us in spirit.

We continue our efforts to our Thai community, as well as to our own comrades and their families.

I am hopeful that our new younger members will seek to gain officers position and bring new Insight and innovations to our combined efforts.

Thank you all and happiest New Year.

Dr. Hector Robertin
Commander
